

# Treat-Lite® Pressure ~~Sore~~ Prevention Cushion

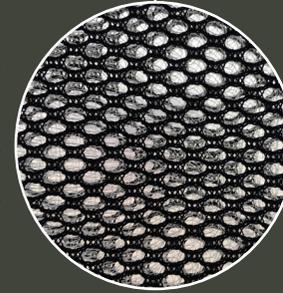

**A simple, cost-effective High-Risk Air Cushion that requires no pump or electricity. Height adjustable & machine washable. Perfect for any individual subjected to long durations of sitting in a wheelchair.**

This new technology allows you the flexibility of using it whilst not requiring pumps or electricity. Unlike any other mesh fibre on the market its unique cross checked weave gives it unsurpassable strength.

Please review the advantages below and then tell us why you don't want to use one!

- An air cushion without a pump. No adjustments, no maintenance and a long life.
- High-risk cushion which can have the layers removed if depth is not required
- Extremely light weight
- 130 kg weight capacity
- Can be machine washed at 30°C and hung dry
- Fantastic airflow, thus avoiding heat build up
- Ideal for wheelchair users and clients at risk of pressure sores
- 97.5% of wheelchair users can benefit from this product
- Anti-bacterial and anti-fungal
- Available in 2 sizes. 50cm x 45cm and 45cm x 45cm
- Pressure tested between 55/60 mmHg thus competing with some of the most expensive cushions
- User friendly zipper for those who struggle with dexterity
- Not suitable for clients with uneven pelvic bone structure

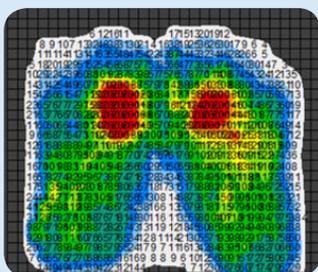

Inside each cushion there are 4 layers of amazing air-filled micro filaments

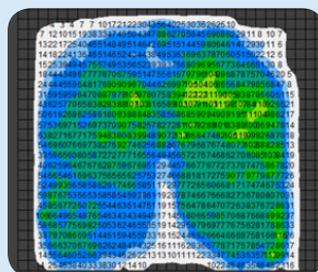

**2 YEAR WARRANTY**
